**PERSONAL PLANNING**

This team will design the form and process and provide training to enable the GTS team to capture information on the members' passions as well as service opportunities from committee leads to enable successful matching.

MIGRATION

This team will research and suggest how we can introduce term limits across all leadership positions and determine what it will take to move the Nominating Committee into the GTS team.

GTS

MULTI-GEN/ CULTURAL LENS

This team will apply a multi generational and multi cultural lens to all aspects of our GTS program development.

TIME

This team is responsible for the effective communication of the GTS program to educate the congregation on this new program; including the concept of growth through service, how the personal planning process will work, and the benefits to the individual and the church congregation as a whole.

FOUNDATIONS

This team will design, develop and implement a technology solution, ideally using the current UUCDC database, to collect, store and report on all GTS data (member passions and service opportunities).
